Java Application Blocked Procedure

1. Go to your Control Panel (Control Panel is found by left clicking on the Start button in the lower left corner of your computer screen). **Note: It could also be a windows icon**.

2. In the Control Panel, find the Java icon and double left click.

3. A new box will appear that reads, Java Control Panel. It has five tabs that run across the top of the box. Click on the Security Tab.

4. In the security tab, about 3/4 down the right side of the page is an Edit Site List button. Double click on this button and an **Exception Site list box** will appear.

5. Click Add.

6. A blue box containing a white exclamation mark in a red circle will appear. Click to the right of this icon until your curser is blinking.

7. Enter the site https://systems.mvs-services.com into this field. Then, press add and okay.

8. A box with the website will appear for verification, press OK.

9. At this time, return to your internet browser and log into the MVS website.
